

ENTERID™

FEED ADDITIVE

PACKAGING AND CODES

Bags, net weight 50 pounds
Code: Nutra Blend C22423AO
E1 2728590

Available from:
Nutra Blend, LLC,
Neosho, MO 64850
800-657-5657

Nutra Blend West,
Madera, CA 93637 / 503-982-9545
Hubbard, OR 97032 / 559-661-6161

Nutra Blend East,
North Troy, VT 05859
800-945-4474

PMI develops innovative combinations of animal feed additives that optimize performance in poultry, swine, dairy and beef cattle by supporting nutrient utilization and gut health. Working with feed nutritionists, manufacturers, veterinarians and producers, PMI products harness the interactions between feed additives to deliver value, efficacy and strong results. Through a comprehensive innovation approach, across component verticals, species, and geographies, PMI leverages the most advanced ingredients and technologies to develop products that perform.

- ▲ Supports optimal gut health and integrity
- ▲ Supports a balanced gut microbiome
- ▲ Risk management tool to maintain producers' nutritional programs around intestinal challenges

Nutritional programs are designed to optimize animal performance and production efficiency. Inclusion of functional ingredients, such as prebiotics, probiotics, plant extracts, and specialty flavorings, are typically directed at supporting optimal gut integrity. Strategies that combine these tools are often needed to ensure success. High gut integrity contributes to optimized endogenous secretions which supports digestion and nutrient absorption. High gut integrity also requires less energy expenditure for maintenance therefore, more nutrients are available for production parameters.

Enterid™ Feed Additive (Enterid™ FA) helps post-weaned pigs by addressing intestinal challenges. The multiple components in Enterid™ FA support optimal microbial population to support the pig's developing gut environment and immune system.

Together, these ingredients deliver the following modes of action:

ENTERID™ FA DELIVERS THE FOLLOWING MODES OF ACTION

- Captures bacteria to support optimal gut microbial profile
- Helps Contain bacteria to support optimal environmental microbial populations
- Supports optimal gut health during intestinal challenges

The multiple components in Enterid™ FA work together in the gut to support the young pig's immunity. These ingredients interact to help maintain optimal gut integrity during intestinal challenges.

RECOMMENDED INCLUSION LEVEL

COMPLETE FEED FOR	INCLUSION LEVEL
Early Starter	Mix at rate of 2 to 3 lbs. per ton
Late Starter	Mix at rate of 1 to 2 lbs. per ton
Grow/Finish	Mix at rate of 1 lb. per ton
Sow	Mix at rate of 1 to 2 lbs. per ton
