

Ambitine® Feed Additive Research Summary

What is Ambitine® Feed Additive?

Proprietary blend of key acidifiers and plant extracts designed to support swine finisher performance in the last 70 lb. of growth.

Research Proven

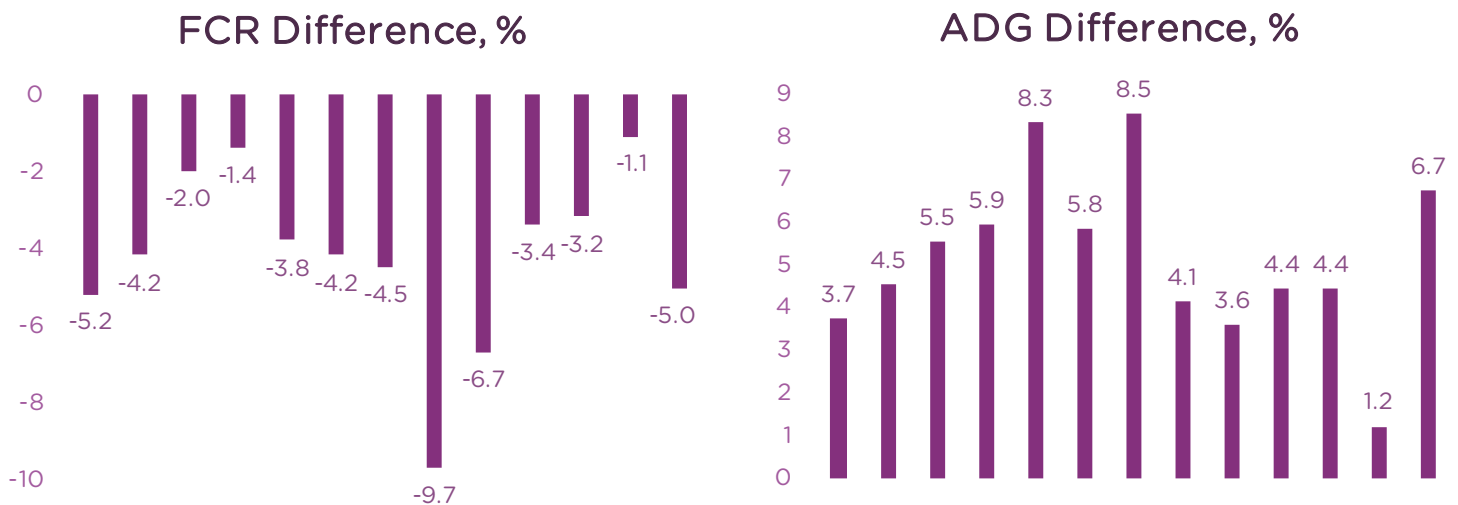

- 13 trials (3 internal, 7 commercial research facilities, 3 field side-by-side; 5 published abstracts)*
 - Average FCR optimized by 4.2%
 - Average ADG optimized by 5.1%
 - Average BW gain of 4.5 lb.

Competitively Priced to Support ROI

Easy to Implement

- 2 lb/ton (replacing corn) for the last 70 lbs. of growth
- No VFD required
- Can be fed with or without pharmacological levels of Copper, Paylean® and/or Skycis®¹

13 Trial* Performance Summary[¥]

[¥] Relative difference to the control within the individual trial.

¹ Skycis and Paylean are registered trademarks of Eli Lilly and Company
